

Buraflex HT 2000/HT

Features

Buraflex HT 2000/HT is a packing made from expanded graphite combined with Nomex yarn corners. The Buraflex HT is a special packing for applications with high temperatures and peripheral speeds.

Key physical characteristics

Operating temperature min. [°C]	-100,00
Operating temperature max. [°C]	280,00
Medium pressure max. [bar]	80 A 40 P
Speed oscillating [m/s]	5,00
Speed rotating [m/s]	40,00
suitable for pH value	1-13
Thermal conductivity [W/(k*m)]	36,00
P*V factor	400,00

All technical specifications are based on extensive tests and our many years of experience. The diversity of possible applications, however, means that they can serve only as guide values.

We must be notified of the exact conditions of application before we can provide any guarantee for a specific case. This is subject to change.
